

Detail-oriented Frontend Developer with 1+ years of experience building responsive and scalable web applications using React.js, JavaScript, HTML, TailwindCSS, and modern UI frameworks. Skilled in developing reusable components, integrating REST APIs, optimizing performance, and delivering user-focused solutions. Strong problem-solving and collaboration skills with experience working in Agile, cross-functional teams and contributing to innovative frontend projects.

## WORK EXPERIENCE

- 
- Hyfatech**  
*Software Engineer (Frontend)*

Lahore, Pakistan  
Jan 2026 – Present

  - Developed responsive and scalable web applications using React.js, JavaScript, and Tailwind CSS, focusing on reusable components and intuitive user experiences.
  - Built reusable UI components and responsive layouts with Tailwind CSS, ensuring consistent design across desktop, tablet, and mobile devices.
  - Integrated REST APIs with React applications to deliver dynamic data, form workflows, validation, and real-time user interactions.
  - Collaborated with backend developers and stakeholders to translate business requirements into functional, user-friendly frontend solutions.
  - Implemented complex UI workflows including data tables, filtering, search, pagination, forms, modals, and role-based interfaces with robust validation.
  - Improved application performance and maintainability through component optimization, clean code practices, responsive design, and efficient state management.
  - Participated in Agile development, code reviews, debugging, testing, and Git-based workflows, contributing to timely and high-quality feature delivery.
- SharkmindsAI**  
*Software Engineer (Frontend)*

Islamabad, Pakistan  
August 2025 – Jan 2025

  - Developed responsive and user-friendly interfaces for Sacred Scents Web applications, including shopping cart and order tracking modules.
  - Enhanced SkyrowX web applications by building reporting dashboards, and reusable React components.
  - Developed RBAC-based user management interfaces with role permissions, audit tracking, and compliance-focused workflows.
  - Collaborated with business analysts, backend developers, and QA teams in Agile sprints to deliver scalable, maintainable, and responsive frontend solutions using React.js and Tailwind CSS
- A&S Enterprises**  
*Software Engineer (Frontend)*

Islamabad, Pakistan  
Feb 2025 – July 2025

  - Developed responsive and user-friendly interfaces for Chitral Markhors Web applications, including news, videos, ground booking, academy enrollment and tour booking pages.
  - Enhanced chitral Markhors web applications by building reporting dashboards, and reusable React components.
  - Developed RBAC-based user management interfaces with role permissions, audit tracking, and compliance-focused workflows.
  - Collaborated with business analysts, backend developers, and QA teams in Agile sprints to deliver scalable, maintainable, and responsive frontend solutions using React.js and Tailwind CSS
  - Developed Admin dashboard to control all operations of website.

Sep 2020 – Feb 2025  
Chakwal, Pakistan  
2019 – 2020

## PROJECTS

---

- **Chitral Markhors:** Designed and developed the complete frontend of the Chitral Markhors website using React.js, JavaScript, and Tailwind CSS. Built responsive user interfaces and an admin dashboard with modules for news, videos, academy enrollment, ground booking, and tour booking. Implemented reusable components, responsive layouts, form validation, API integration, and user-friendly workflows across desktop and mobile devices.
- **Sacred Scents:** Designed and developed a responsive perfume e-commerce website using React.js, JavaScript, and Tailwind CSS. Built an elegant product-focused interface with product listings, product details, categories, shopping cart, checkout flow, and responsive navigation. Implemented reusable components, responsive layouts, interactive UI elements, and optimized the overall user experience across desktop, tablet, and mobile devices.
- **SharkMindsAI Website:** Designed and developed a modern, responsive corporate website for SharkMindsAI using React.js, JavaScript, and Tailwind CSS. Built reusable UI components, service and solution sections, responsive navigation, contact forms, and engaging interactive elements. Focused on creating a professional, user-friendly interface with responsive layouts and consistent design across desktop, tablet, and mobile devices.
- **Silent Friend:** Designed and developed a responsive AI chatbot interface using React.js, JavaScript, and Tailwind CSS. Built an intuitive conversational UI with real-time messaging, chat history, responsive layouts, user-friendly interactions, and dynamic message rendering. Implemented reusable components and optimized the interface for seamless performance across desktop, tablet, and mobile devices.
- **Wedwise App:** Designed and developed a comprehensive wedding marketplace platform using React.js, JavaScript, and Tailwind CSS, connecting couples with wedding service providers. Built responsive interfaces for Admin, Client, and Seller portals, featuring jewellery and furniture shopping, wedding hall booking, menu/catering services, photographer booking, and vendor management. Developed reusable components, dynamic dashboards, booking workflows, forms, search/filter functionality, and responsive layouts to deliver a seamless experience across desktop, tablet, and mobile devices.

## TECHNICAL EXPERTISE

---

- **Languages:** JavaScript, HTML, CSS
- **Frontend:** React.js, React Hooks, Tailwind CSS, Responsive Design, REST API Integration
- **UI & Styling:** Tailwind CSS, CSS, Flexbox, CSS Grid, Responsive & Mobile-First Design
- **State & Data:** React State, Context API, API Integration
- **Development Tools:** VS Code, Git, GitHub, Chrome DevTools
- **Version Control:** Git, GitHub, Git workflows
- **Practices:** Reusable Components, Clean Code, Cross-Browser Compatibility, Performance Optimization
- **Soft Skills:** Problem-Solving, Communication, Team Collaboration, Time Management, Adaptability, Leadership

## ACHIEVEMENTS

---

- Team leader of frontend developers during internship.
- Conducted frontend development workshop in university.
- Got certificate of participation in Cust Hackathon powered by Huawei and TechSol
